

Gloucestershire County Council has been one of Beam Construction's major clients over the last 20 years and has been involved with numerous education projects. The company has also undertaken works directly for School Board's of Governors and prides itself in the good working relationships that have been established. Since 2005, the value of work undertaken for the Educational sector, both public and private, exceeded £12m.

Marling School, Stroud

A £1.9m new build contract to provide modern teaching facilities. This was the second project undertaken for the Board of Governors following the successful completion of a new Sports Hall and Changing Room.

Whitecross School, Lydney

This new Engineering facility and Administration Block was completed in 2008 and cost £1.5m. This was the second contract for Whitecross School after a £270k project in 2003.

St Benedicts Catholic School, Cheltenham

A £1.1m Sports Hall with Changing Facilities. Following the completion of the contract in 2006, Beam Construction were invited back to undertake a fast track upgrade and refurbishment of the school's Science Laboratories over the summer holidays.

Farmors School, Fairford

This £1.6m modern designed Science Laboratory Block offers staff and pupils state-of-the-art learning facilities.

Whaddon Primary School, Cheltenham

Beam Construction has undertaken a number of projects for Whaddon School over the years. Featured here is a £1.0m contract to provide new classrooms and an Early Learning Centre.

A £500k three Storey extension to Berkhamstead School, Cheltenham

The company also provides a service to privately funded schools and have successfully completed a variety of challenging projects to date.

A £600k Teaching Block for St Edwards School, Cheltenham

When it comes to choosing a contractor to undertake Education Construction Projects you need look no further than Beam Construction who have all the experience and qualified staff you require.
