

Beam Construction's expertise in Renovating and Refurbishing Historic and Listed Buildings is unsurpassed. Since the company's formation in 1988 it has undertaken many prestigious projects and won acclaim from local and national Civic Societies for their contribution.

## Wycliffe College, Stonehouse

External restoration carried out including replacement of perished Ashlar and repairs to the lead work, roof coverings and windows. The work was undertaken during the college summer holiday period to minimise the disruption to staff and students.

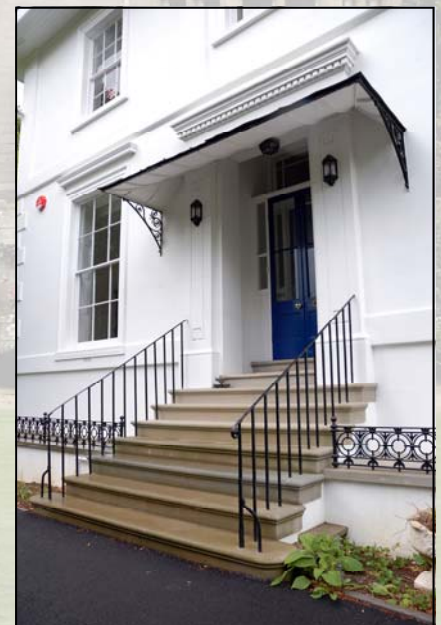

## Ashwick Hall, Nr Chippenham

An £850k contract completed in 2008 which included extensive re-roofing and external repairs. Traditional materials used on the project including Welsh slate, lead, cast iron rainwater goods and Bath stone.

## Hilgay Lodge, Cheltenham

A complete internal and external renovation of a grade 2 listed building, retaining many of the original features was finished to the highest standards. Contract value £520k.

## Netherswell Manor, Stow-on-the-Wold

A new extension and major alterations /restoration to this fine country house in the Cotwolds. Contract value £715k.

## St Mary's Church, Cheltenham

This contract involved the replacement of Cotwold Stone roofing, lime rendering and cast iron rainwater goods.

## 1-3 College Yard, Worcester

A £735k internal and external renovation of two properties in Worcester next to the Cathedral under the watchful eye of the local conservation officer.

## Normandy House, Cheltenham

This contract was the flagship for Beam Construction in the early days, receiving both local and national awards for this major restoration project. This will become our new company headquarters January 2010.
