

For almost 20 years Beam Construction has undertaken contracts for Gloucestershire Hospital Health Trusts throughout the county.

The contracts cover new build and refurbishment on a wide variety of projects. These include working in areas occupied by patients and staff. Our project teams have the experience and commitment to meet the challenges involved, and to provide the first class service and delivery expected by our clients.

Since 2003, the overall value of major projects completed exceeds £15 million. Additionally, our General Works Department has completed over 250 minor contracts valued at over £1.2 million in the same period.

Examples of major projects undertaken since 2003 include :
